

Learn the latest insights about transforming your enterprise to become Integration Agile

What's Integration Agile?

All software development projects are becoming integration projects. In fact, Gartner Research estimates that by 2020, 50% of development will involve integration. So, becoming Integration Agile refers to the need for all IT projects to adopt agility for both development and integration phases.

WSO2CON EU WILL EXPLORE

- How to avoid the "integration gap" which slows down projects
- A new agile transformational methodology to address the inevitability of becoming an integration organization
- How an open source approach helps avoid vendor lock-in and spur innovation
- How to use the WSO2 integrated platform to simplify integration projects
- Real-life integration experiences from enterprises like you

Whether you're a C-level exec, an architect, or a developer, our agenda is filled with keynotes and discussion sessions to help you understand more about the need to become Integration Agile.

WHO'S IT FOR

C-LEVELS	ARCHITECTS	DEVELOPERS
<p>Keynotes by Arie Van Bennekum (co-author of the Agile manifesto) and more</p> <hr/> <p>Meet and network with industry experts and others who are striving to solve similar enterprise problems such as privacy regulations and complying with standards</p> <hr/> <p>Learn how Integration agility (from WSO2's CEO Tyler Jewell himself!) could help with maximizing revenue and productivity</p> <hr/> <p>Plan for the potential of your enterprise and where you want to be</p>	<p>Keynotes including WSO2's CTO Paul Fremantle on the Integration Technology landscape and tech roadmaps</p> <hr/> <p>Meet 1:1 with WSO2 product experts to get technical questions answered</p> <hr/> <p>Learn about agile methodologies and product design</p> <hr/> <p>Network with other architects from a range of industries on how they designed their enterprise architectures</p> <hr/> <p>Connect with like-minded individuals and industry thought leaders</p>	<p>Keynotes by the co-author of Agile manifesto Arie Van Bennekum and more</p> <hr/> <p>Attend product sessions on API management, Integration, Identity and Access Management, and Analytics</p> <hr/> <p>Tutorials led by WSO2 experts for deeper knowledge and hands-on experience for integration agility and APIs</p> <hr/> <p>Relax and mingle at our networking reception</p>
